# **INTRODUCTORY BILLING INFORMATION**

## **Billing Instructions**

SilverSummit Healthplan follows CMS rules and regulations, specifically the Federal requirements set forth in 42 USC § 1396a (a) (37) (A), 42 CFR § 447.45 and 42 CFR § 447.46; and in accordance with State laws and regulations, as applicable.

## **General Billing Guidelines**

Physicians, other licensed health professionals, facilities, and ancillary provider's contract directly with SilverSummit Healthplan for payment of covered services.

It is important that providers ensure SilverSummit Healthplan has accurate billing information on file. Please confirm with our Provider Relations department that the following information is current in our files:

- Provider name (as noted on current W-9 form)
- National Provider Identifier (NPI)
- Tax Identification Number (TIN)
- Medicaid Number
- Taxonomy code
- Physical location address (as noted on current W-9 form)
- Billing name and address

Providers must bill with their NPI number in box 24Jb. Providers must also bill their taxonomy code in box 24Ja and the Member's Medicaid number in box 1a on the CMS 1500, to avoid possible delays in processing. Claims missing the required data will be returned, and a notice sent to the provider, creating payment delays. Such claims are not considered "clean" and therefore cannot be accepted into our system.

We recommend that providers notify SilverSummit Healthplan 30 days in advance of changes pertaining to billing information. Please submit this information on a W-9 form. Changes to a Provider's TIN and/or address are NOT acceptable when conveyed via a claim form.

Claims eligible for payment must meet the following requirements:

- The member must be effective on the date of service (see information below on identifying the enroll(lee),
- The service provided must be a covered benefit under the member's contract on the date of service, and

- Referral and prior authorization processes must be followed, if applicable.

Payment for service is contingent upon compliance with referral and prior authorization policies and procedures, as well as the billing guidelines outlined in this manual.

When submitting your claim, you need to identify the member. There are three ways to identify the member:

- The SilverSummit Healthplan member number found on the member ID card or the provider portal.
- The Medicaid Number provided by the State and found on the member ID card or the provider portal
- Further eligibility instructions for validation can be found in the Provider Manual

## **Claim Forms**

SilverSummit Healthplan only accepts the CMS 1500 (2/12) and CMS 1450 (UB-04) paper claim forms. Other claim form types will be rejected and returned to the provider.

Professional providers and medical suppliers complete the CMS 1500 (2/12) form and institutional providers complete the CMS 1450 (UB-04) claim form. SilverSummit Healthplan does not supply claim forms to providers. Providers should purchase these from a supplier of their choice. All paper claim forms are required to be typed or printed and in the original red and white version to ensure clean acceptance and processing. All claims with handwritten information or black and white forms will be rejected. If you have questions regarding what type of form to complete, contact SilverSummit Healthplan at the following phone number: 1-844-366-2880

## **Billing Codes**

SilverSummit Healthplan requires claims to be submitted using codes from the current version of, ICD-10, DSM, ASA, DRG, CPT4, and HCPCS Level II for the date the service was rendered. These requirements may be amended to comply with federal and state regulations as necessary. Below are some code related reasons a claim may reject or deny:

- Code billed is missing, invalid, or deleted at the time of service
- Code is inappropriate for the age or sex of the member
- Diagnosis code is missing digits.
- Procedure code is pointing to a diagnosis that is not appropriate to be billed as primary
- Code billed is inappropriate for the location or specialty billed

- Code billed is a part of a more comprehensive code billed on same date of service

Written descriptions, itemized statements, and invoices may be required for non-specific types of claims or at the request of SilverSummit Healthplan.

### **CPT® Category II Codes**

CPT Category II Codes are supplemental tracking codes developed to assist in the collection and reporting of information regarding performance measurement, including HEDIS.

Submission of CPT Category II Codes allows data to be captured at the time of service and may reduce the need for retrospective medical record review.

Uses of these codes are optional and are not required for correct coding. They may not be used as a substitute for Category I codes. However, as noted above, submission of these codes can minimize the administrative burden on providers and health plans by greatly decreasing the need for medical record review.

### **Encounters vs Claim**

An encounter is a claim which is paid at zero dollars as a result of the provider being pre-paid or capitated for the services he/she provided our members. For example; if you are the PMP for a member and receive a monthly capitation amount for services, you must file an encounter (also referred to as a “proxy claim”) on a CMS 1500 for each service provided. Since you will have received a pre-payment in the form of capitation, the encounter or “proxy claim” is paid at zero dollar amounts. It is mandatory that your office submits encounter data. SilverSummit Healthplan utilizes the encounter reporting to evaluate all aspects of quality and utilization management, and it is required by DHCFP and by the Centers for Medicare and Medicaid Services (CMS). Encounters do not generate an Explanation of Payment (EOP).

A claim is a request for reimbursement either electronically or by paper for any medical service. A claim must be filed on the proper form, such as CMS 1500 or UB 04. A claim will be paid or denied with an explanation for the denial. For each claim processed, an EOP will be mailed to the provider who submitted the original claim. Claims will generate an EOP.

You are required to submit either an encounter or a claim for each service that you render to a SilverSummit Healthplan member.

### **Clean Claim Definition**

A clean claim means a claim received by SilverSummit Healthplan for adjudication, in a nationally accepted format in compliance with standard coding guidelines and which requires no further information, adjustment, or alteration by the provider of the services in order to be processed and paid by SilverSummit Healthplan.

## Non-Clean Claim Definition

Non-clean claims are submitted claims that require further documentation or development beyond the information contained therein. The errors or omissions in claims result in the request for additional information from the provider or other external sources to resolve or correct data omitted from the bill; review of additional medical records; or the need for other information necessary to resolve discrepancies. In addition, non-clean claims may involve issues regarding medical necessity and include claims not submitted within the filing deadlines.

## Rejection versus Denial

All paper claims sent to the claims office must first pass specific minimum edits prior to acceptance. Claim records that do not pass these minimum edits are invalid and will be rejected or denied.

**REJECTION:** A list of common upfront rejections can be found on page 15. Rejections will not enter our claims adjudication system, so there will be no Explanation. A REJECTION is defined as an unclean claim that contains invalid or missing data elements required for acceptance of the claim into the claim processing system. The provider will receive a letter or a rejection report if the claim was submitted electronically.

**DENIAL:** If all minimum edits pass and the claim is accepted, it will then be entered into the system for processing. A DENIAL is defined as a claim that has passed minimum edits and is entered into the system, however has been billed with invalid or inappropriate information causing the claim to deny. An EOP will be sent that includes the denial reason. A comprehensive list of common delays and denials can be found below.

## Claim Payment

Clean claims will be adjudicated (finalized as paid or denied) at the following levels:

- 90% within 30 calendar days of the date of receipt
- 99% within 90 calendar days of the date of receipt

## **CLAIMS PAYMENT INFORMATION**

### **Systems Used to Pay Claims**

SilverSummit Healthplan uses three main systems to process reimbursement on a claim.

Those systems are:

- Amisys
- DST Pricer

#### **AMISYS**

Our core system; All claims are processed from this system and structures are maintained to meet the needs of our provider contracts. However, we are not limited within the bounds of this one system. We utilize multiple systems to expand our universe of possibilities and better meet the needs of our business partners.

#### **DST PRICER**

The DST Pricer is a system outside our core system where we have some flexibility on addressing your contractual needs. It allows us to be more responsive to the market demands. It houses both Fee Schedules and procedure codes and mirrors our Amisys system, but with more attention to detail.

### **Electronic Claims Submission**

Network providers are encouraged to participate in SilverSummit Healthplan's electronic claims/encounter filing program. SilverSummit Healthplan can receive ANSI X12N 837 professional, institution or encounter transactions. In addition, it can generate an ANSI X12N 835 electronic remittance advice known as an Explanation of Payment (EOP). Providers that bill electronically have the same timely filing requirements as providers filing paper claims.

In addition, providers that bill electronically must monitor their error reports and evidence of payments to ensure all submitted claims and encounters appear on the reports. Providers are responsible for correcting any errors and resubmitting the affiliated claims and encounters.

SilverSummit Healthplan's Payor ID is 68069. Our Clearinghouse vendors include Change Healthcare (formerly Emdeon), Envoy, WebMD, Availity and TriZetto (formerly GatewayEDI). Please visit our website for our electronic Companion Guide which offers more instructions. For questions or more information on electronic filing please contact:

## **Paper Claim Submission**

For SilverSummit Healthplan members, all claims and encounters should be submitted to:

**SilverSummit Healthplan  
Attn: Claims Department  
PO Box 5090  
Farmington MO 63640-5090**

### REQUIREMENTS

SilverSummit Healthplan uses an imaging process for paper claims retrieval. Please see Appendix 4 and 5 for required fields. To ensure accurate and timely claims capture, please observe the following claims submission rules:

#### Do's

- Do use the correct P.O. Box number
- Do submit all claims in a 9" x 12" or larger envelope
- Do type all fields completely and correctly
- Do use typed black or blue ink only at 10 to 12 point font
- Do include all other insurance information (policy holder, carrier name, ID number and address) when applicable
- Do include the EOP from the primary insurance carrier when applicable

Note: SilverSummit Healthplan is able to receive primary insurance carrier EOP electronically

- Do submit on a proper original form - CMS 1500 or UB 04

#### Don'ts

- Don't submit handwritten claim forms
- Don't use red ink on claim forms

- Don't circle any data on claim forms
- Don't add extraneous information to any claim form field
- Don't use highlighter on any claim form field
- Don't submit photocopied claim forms (no black and white claim forms)
- Don't submit carbon copied claim forms
- Don't submit claim forms via fax
- Don't utilize staples for attachments or multi page documents

**Basic Guidelines for Completing the CMS-1500 Claim Form (detailed instructions in appendix):**

- Use one claim form for each recipient.
- Enter one procedure code and date of service per claim line.
- Enter information with a typewriter or a computer using black type.
- Enter information within the allotted spaces.
- Make sure whiteout is not used on the claim form.
- Complete the form using the specific procedure or billing code for the service.
- Use the same claim form for all services provided for the same recipient, same provider, and same date of service.
- If dates of service encompass more than one month, a separate billing form must be used for each month.

**Electronic Funds Transfers (EFT) and Electronic Remittance Advices (ERA)**

SilverSummit Healthplan provides Electronic Funds Transfer (EFT) and Electronic Remittance Advice (ERA) to its participating providers to help them reduce costs, speed secondary billings, and improve cash flow by enabling online access of remittance information, and straight forward reconciliation of payments. As a Provider, you can gain the following benefits from using EFT and ERA:

1. Reduce accounting expenses – Electronic remittance advices can be imported directly into practice management or patient accounting systems, eliminating the need for manual re-keying
2. Improve cash flow – Electronic payments mean faster payments, leading to improvements in cash flow

3. Maintain control over bank accounts – You keep TOTAL control over the destination of claim payment funds and multiple practices and accounts are supported
4. Match payments to advices quickly – You can associate electronic payments with electronic remittance advices quickly and easily

For more information on our EFT and ERA services, please contact our Provider Services Department at

### **Common Causes of Claims Processing Delays and Denials**

- Incorrect Form Type
- Diagnosis Code Missing Digits
- Missing or Invalid Procedure or Modifier Codes
- Missing or Invalid DRG Code
- Explanation of Benefits from the Primary Carrier is Missing or Incomplete
- Invalid Member ID
- Invalid Place of Service Code
- Provider TIN and NPI Do Not Match
- Invalid Revenue Code
- Dates of Service Span Do Not Match Listed Days/Units
- Missing Physician Signature
- Invalid TIN
- Missing or Incomplete Third Party Liability Information

SilverSummit Healthplan will send providers written notification via the EOP for each claim that is denied, which will include the reason(s) for the denial.

### **Common Causes of Up Front Rejections**

- Unreadable Information
- Missing Member Date of Birth

- Missing Member Name or Identification Number
- Missing Provider Name, Tax ID, or NPI Number
- Missing Medicaid Number
- The Date of Service on the Claim is Not Prior to Receipt Date of the Claim
- Dates Are Missing from Required Fields
- Invalid or Missing Type of Bill
- Missing, Invalid or Incomplete Diagnosis Code
- Missing Service Line Detail
- Member Not Effective on The Date of Service
- Admission Type is Missing
- Missing Patient Status
- Missing or Invalid Occurrence Code or Date
- Missing or Invalid Revenue Code
- Missing or Invalid CPT/Procedure Code
- Incorrect Form Type
- Claims submitted with handwritten data or black and white forms

SilverSummit Healthplan will send providers a detailed letter for each claim that is rejected explaining the reason for the rejection.

### **CLIA Accreditation**

Labs who participate in the Medicare or Medicaid sector with SilverSummit Healthplan must be CLIA accredited. Requirements for laboratory accreditation are contained in the Comprehensive Accreditation Manual for Laboratory and Point-of-Care Testing (CAMLAB) located at the following link: <http://www.jcrinc.com/store/publications/manuals/>

### **How to Submit a CLIA Claim**

#### Via Paper

Complete Box 23 of a CMS-1500 form with CLIA certification or waiver number as the prior authorization number for those laboratory services for which CLIA certification or waiver is required.

*\*Note* - An independent clinical laboratory that elects to file a paper claim form shall file Form CMS-1500 for a referred laboratory service (as it would any laboratory service). The line item services must be submitted with a modifier 90. An independent clinical laboratory that submits claims in paper format may not combine non-referred (i.e., self-performed) and referred services on the same CMS-1500 claim form. When the referring laboratory bills for both non-referred and referred tests, it shall submit two separate claims, one claim for non-referred tests, the other for referred tests. If billing for services that have been referred to more than one laboratory, the referring laboratory shall submit a separate claim for each laboratory to which services were referred (unless one or more of the reference laboratories are separately billing). When the referring laboratory is the billing laboratory, the reference laboratory's name, address, and ZIP Code shall be reported in item 32 on the CMS-1500 claim form to show where the service (test) was actually performed. The NPI shall be reported in item 32a. Also, the CLIA certification or waiver number of the reference laboratory shall be reported in item 23 on the CMS-1500 claim form.

#### Via EDI

If a single claim is submitted for those laboratory services for which CLIA certification or waiver is required, report the CLIA certification or waiver number in: X12N 837 (HIPAA version) loop 2300, REF02. REF01 = X4

-Or-

If a claim is submitted with both laboratory services for which CLIA certification or waiver is required and non-CLIA covered laboratory test, in the 2400 loop for the appropriate line report the CLIA certification or waiver number in: X12N 837 (HIPAA version) loop 2400, REF02. REF01 = X4

*\*Note* - The billing laboratory submits, on the same claim, tests referred to another (referral/rendered) laboratory, with modifier 90 reported on the line item and reports the referral laboratory's CLIA certification or waiver number in: X12N 837 (HIPAA version) loop 2400, REF02. REF01 = F4. When the referring laboratory is the billing laboratory, the reference laboratory's name, NPI, address, and Zip Code shall be reported in loop 2310C. The 2420C loop is required if different then information provided in loop 2310C. The 2420C would contain Laboratory name and NPI.

Via AHA Provider Portal: Complete Box 23 with CLIA certification or waiver number as the prior authorization number for those laboratory services for which CLIA certification or waiver is required.

*\*Note* - An independent clinical laboratory that elects to file a paper claim form shall file Form CMS-1500 for a referred laboratory service (as it would any laboratory service). The line item services must be submitted with a modifier 90. An independent clinical laboratory that submits claims in paper format may not combine non-referred (i.e., self-performed) and referred services on the same CMS-1500 claim form. When the referring laboratory bills for both non-referred and referred tests, it shall submit two separate claims, one claim for non-referred

tests, the other for referred tests. If billing for services that have been referred to more than one laboratory, the referring laboratory shall submit a separate claim for each laboratory to which services were referred (unless one or more of the reference laboratories are separately billing). When the referring laboratory is the billing laboratory, the reference laboratory's name, address, and ZIP Code shall be reported in item 32 on the CMS-1500 claim form to show where the service (test) was actually performed. The NPI shall be reported in item 32a. Also, the CLIA certification or waiver number of the reference laboratory shall be reported in item 23 on the CMS-1500 claim form.

### **Claim Requests for Reconsideration, Claim Disputes and Corrected Claims**

All claim requests for reconsideration, must be postmarked no later than 30 days from the date of the initial Remittance Advice (RA) listing the claim was denied. An additional 30 days to appeal a denied claim will not be allowed when an identical claim has been subsequently submitted.

If a provider has a question or is not satisfied with the information they have received related to a claim, there are three (3) effective ways in which the provider can contact SilverSummit Healthplan.

1. Contact a SilverSummit Healthplan Provider Service Representative at 1-844-366-2880. Providers may discuss questions with SilverSummit Healthplan Provider Services Representatives regarding amount reimbursed or denial of a particular service.
2. Contact the Assigned Provider Relations Representative assigned to your facility/organization.
3. Submit an Adjusted or Corrected Claim via the website at website or in writing to SilverSummit Healthplan, Attn: Corrected Claim, PO Box 5090, Farmington MO 63640-5090. The claim must include the original claim number in field 22 of a CMS 1500 or field 64 of the UB04. Failure to include the original claim number and frequency code may result in the claim being denied as a duplicate, a delay in the reprocessing, or denial for exceeding the timely filing limit.

SilverSummit Healthplan shall process, and finalize all adjusted claims, requests for reconsideration and disputed claims to a paid or denied status 30 calendar days of receipt of the corrected claim, request for reconsideration or claim dispute.

### **Third Party Liability / Coordination of Benefits**

Third party liability refers to any other health insurance plan or carrier (e.g., individual, group, employer-related, self-insured or self-funded, or commercial carrier, automobile insurance, and worker's compensation) or program that is or may be liable to pay all or part of the healthcare expenses of the member. Any other insurance, including Medicare, is always primary to Medicaid coverage.

SilverSummit Healthplan, like all Medicaid programs, is always the payer of last resort. Providers shall make reasonable efforts to determine the legal liability of third parties to pay for services furnished to SilverSummit Healthplan members. If a member has other insurance that is primary, you must submit your claim to the primary insurance for consideration, and submit a copy of the Explanation of Benefits (EOB) or Explanation of Payment (EOP), or rejection letter from the other insurance when the claim is filed. If this information is not sent with an initial claim filed for a Member with insurance primary to Medicaid, the claim will pend and/or deny until this information is received. If a Member has another insurance carrier (Medicaid would be the third payer) and has an attachment, the claim should be submitted through the Health Plan secure web portal or via a paper claim.

If the provider is unsuccessful in obtaining necessary cooperation from a member to identify potential third party resources, the provider shall inform the health plan that efforts have been unsuccessful. SilverSummit Healthplan will make every effort to work with the provider to determine liability coverage.

If third party liability coverage is determined after services are rendered, the health plan will coordinate with the provider to pay any claims that may have been denied for payment due to third party liability.

### **Billing the Member / Member Acknowledgement Statement**

SilverSummit Healthplan reimburses only services that are medically necessary and covered through the program. Providers are not allowed to “balance bill” for covered services if the provider’s usual and customary charge for covered services is greater than our fee schedule.

Providers may bill members for services NOT covered by either Medicaid or SilverSummit Healthplan or for applicable copayments, deductibles or coinsurance as defined by the State of Nevada.

In order for a provider to bill a member for services not covered under the program, or if the service limitations have been exceeded, the provider must obtain a written acknowledgment prior to rendering the service, following this language (the Member Acknowledgement Statement):

*I understand that, in the opinion of (provider’s name), the services or items that I have requested to be provided to me on (dates of service) may not be covered under the Program as being reasonable and medically necessary for my care. I understand that SilverSummit Healthplan through its contract with the State Medicaid Agency determines the medical necessity of the services or items that I request and receive. I also understand that I am responsible for payment of the services or items I request and receive if these services or items are determined not to be reasonable and medically necessary for my care.*

## CODE AUDITING AND EDITING

SilverSummit Healthplan uses HIPAA compliant clinical claims auditing software for physician and outpatient facility coding verification. The software will detect, correct, and document coding errors on provider claim submissions prior to payment. The software contains clinical logic which evaluates medical claims against principles of correct coding utilizing industry standards and government sources. These principles are aligned with a correct coding “rule.” When the software audits a claim that does not adhere to a coding rule, a recommendation known as an “edit” is applied to the claim. When an edit is applied to the claim, a claim adjustment should be made.

While code auditing software is a useful tool to ensure provider compliance with correct coding, a fully automated code auditing software application will not wholly evaluate all clinical patient scenarios. Consequently, the health plan uses clinical validation by a team of experienced nursing and coding experts to further identify claims for potential billing errors. Clinical validation allows for consideration of exceptions to correct coding principles and may identify where additional reimbursement is warranted. For example, clinicians review all claims billed with modifiers -25 and -59 for clinical scenarios which justify payment above and beyond the basic service performed.

Moreover, SilverSummit Healthplan may have policies that differ from correct coding principles. Accordingly, exceptions to general correct coding principles may be required to ensure adherence to health plan policies and to facilitate accurate claims reimbursement.

### **CPT and HCPCS Coding Structure**

CPT codes are a component of the HealthCare Common Procedure Coding System (HCPCS). The HCPCS system was designed to standardize coding to ensure accurate claims payment and consists of two levels of standardized coding. Current Procedural Terminology (CPT) codes belong to the Level I subset and consist of the terminology used to describe medical terms and procedures performed by health care professionals. CPT codes are published by the American Medical Association (AMA). CPT codes are updated (added, revised and deleted) on an annual basis.

1. **Level I HCPCS Codes (CPT):** This code set is comprised of CPT codes that are maintained by the AMA. CPT codes are a 5- digit, uniform coding system used by providers to describe medical procedures and services rendered to a patient. These codes are then used to bill health insurance companies.
2. **Level II HCPCS:** The Level II subset of HCPCS codes is used to describe supplies, products and services that are not included in the CPT code descriptions (durable medical equipment, orthotics and prosthetics and etc.). Level II codes are an alphabetical coding system and are maintained by CMS. Level II HCPCS codes are updated on an annual basis.
3. **Miscellaneous/Unlisted Codes:** The codes are a subset of the Level II HCPCS coding system and are used by a provider or supplier when there is no existing CPT

code to accurately represent the services provided. Claims submitted with miscellaneous codes are subject to a manual review. To facilitate the manual review, providers are required to submit medical records with the initial claims submission. If the records are not received, the provider will receive a denial indicating that medical records are required. Providers billing miscellaneous codes must submit medical documentation that clearly defines the procedure performed including, but not limited to, office notes, operative report, and pathology report and related pricing information. Once received, a registered nurse reviews the medical records to determine if there was a more specific code(s) that should have been billed for the service or procedure rendered. Clinical validation also includes identifying other procedures and services billed on the claim for correct coding that may be related to the miscellaneous code. For example, if the miscellaneous code is determined to be the primary procedure, then other procedures and services that are integral to the successful completion of the primary procedure should be included in the reimbursement value of the primary code.

4. **Temporary National Codes:** These codes are a subset of the Level II HCPCS coding system and are used to code services when no permanent, national code exists. These codes are considered temporary and may only be used until a permanent code is established. These codes consist of G, Q, K, S, H and T code ranges.
5. **HCPCS Code Modifiers:** Modifiers are used by providers to include additional information about the HCPCS code billed. On occasion; certain procedures require more explanation because of special circumstances. For example, modifier -24 is appended to evaluation and management services to indicate that a patient was seen for a new or special circumstance unrelated to a previously billed surgery for which there is a global period.

## International Classification of Diseases (ICD 10)

These codes represent classifications of diseases. They are used by healthcare providers to classify diseases and other health problems.

## Revenue Codes

These codes represent where a patient had services performed in a hospital or the type of services received. These codes are billed by institutional providers. HCPCS codes may be required on the claim in addition to the revenue code.

## Edit Sources

The claims editing software application contains a comprehensive set of rules addressing coding inaccuracies such as: unbundling, frequency limitations, fragmentation, up-coding, duplication, invalid codes, mutually exclusive procedures and other coding inconsistencies. Each rule is linked to a generally accepted coding principle. Guidance surrounding the most likely clinical scenario is applied. This information is provided by clinical consultants, health plan medical directors, research and etc.

The software applies edits that are based on the following sources

- Centers for Medicare & Medicaid Services' (CMS) National Correct Coding Initiative (NCCI) for professional and facility claims. The NCCI edits includes column 1/column 2, medically unlikely edits (MUE), exclusive and outpatient code editor (OCE) edits. These edits were developed by CMS to control incorrect code combination billing contributing to incorrect payments. ## **Code Auditing and the Claims Adjudication Cycle**

Code auditing is the final stage in the claims adjudication process. Once a claim has completed all previous adjudication phases (such as benefits and member/provider eligibility review), the claim is ready for analysis.

As a claim progresses through the code auditing cycle, each service line on the claim is processed through the code auditing rules engine and evaluated for correct coding. As part of this evaluation, the prospective claim is analyzed against other codes billed on the same claim as well as previously paid claims found in the member/provider history.

Depending upon the code edit applied, the software will make the following recommendations:

**Deny:** Code auditing rule recommends the denial of a claim line. The appropriate explanation code is documented on the provider's explanation of payment along with reconsideration/appeal instructions.

**Pend:** Code auditing recommends that the service line pend for clinical review and validation. This review may result in a pay or deny recommendation. The appropriate decision is documented on the provider's explanation of payment along with reconsideration/appeal instructions

**Replace and Pay:** Code auditing recommends the denial of a service line and a new line is added and paid. In this scenario, the original service line is left unchanged on the claim and a new line is added to reflect the software recommendations. For example, an incorrect CPT code is billed for the member's age. The software will deny the original service line billed by the provider and add a new service line with the correct CPT code, resulting in a paid service line. This action does not alter or change the provider's billing as the original billing remains on the claim.

## Code Auditing Principles

The below principles do not represent an all-inclusive list of the available code auditing principles, but rather an area sampling of edits which are applied to physician and/or outpatient facility claims.

### Unbundling:

CMS National Correct Coding Initiative-

<https://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index.html>

CMS developed the correct coding initiative to control erroneous coding and help prevent inaccurate claims payment. CMS has designated certain combinations of codes that should never be billed together. These are also known as Column 1/Column II edits. The column I procedure code is the most comprehensive code and reimbursement for the column II code is subsumed into the payment for the comprehensive code. The column I code is considered an integral component of the column II code.

The CMS NCCI edits consist of Procedure to Procedure (PTP) edits for physicians and hospitals and the Medically Unlikely Edits for professionals and facilities. While these codes should not be billed together, there are circumstances when an NCCI modifier may be appended to the column 2 code to identify a significant and separately identifiable or distinct service. When these modifiers are billed, clinical validation will be performed.

### PTP Practitioner and Hospital Edits

Some procedures should not be reimbursed when billed together. CMS developed the Procedure to Procedure (PTP) Edits for practitioners and hospitals to detect incorrect claims submitted by medical providers. PTP for practitioner edits are applied to claims submitted by physicians, non-physician practitioners and ambulatory surgical centers (ASC). The PTP-hospital edits apply to hospitals, skilled nursing facilities, home health agencies, outpatient

physical therapy and speech-language pathology providers and comprehensive outpatient rehabilitation facilities.

### **Medically Unlikely Edits (MUEs) for Practitioners, DME Providers and Facilities**

MUE's reflect the maximum number of units that a provider would bill for a single member, on a single date of service. These edits are based on CPT/HCPCs code descriptions, anatomic specifications, the nature of the service/procedure, the nature of the analyst, equipment prescribing information and clinical judgment.

### **Code Bundling Rules not sourced to CMS NCCI Edit Tables**

Many specialty medical organizations and health advisory committees have developed rules around how codes should be used in their area of expertise. These rules are published and are available for use by the public-domain. Procedure code definitions and relative value units are considered when developing these code sets. Rules are specifically designed for professional and outpatient facility claims editing.

### **Procedure Code Unbundling**

Two or more procedure codes are used to report a service when a single, more comprehensive should have been used. The less comprehensive code will be denied.

### **Mutually Exclusive Editing**

These are combinations of procedure codes that may differ in technique or approach but result in the same outcome. The procedures may be impossible to perform anatomically. Procedure codes may also be considered mutually exclusive when an initial or subsequent service is billed on the same date of service. The procedure with the highest RVU is considered the reimbursable code.

### **Incidental Procedures**

These are procedure code combinations that are considered clinically integral to the successful completion of the primary procedure and should not be billed separately.

### **Global Surgical Period Editing/Medical Visit Editing**

CMS publishes rules surrounding payment of an evaluation and management service during the global surgical period of a procedure. The global surgery data is taken from the CMS Medicare Fee Schedule Database (MFSDB).

Procedures are assigned a 0, 10 or 90-day global surgical period. Procedures assigned a 90-day global surgery period are designated as major procedures. Procedures assigned a 0 or 10 day global surgical period are designated as minor procedures.

Evaluation and Management services for a major procedure (90-day period) that are reported 1-day preoperatively, on the same date of service or during the 90-day post-operative period are not recommended for separate reimbursement.

Evaluation and Management services that are reported with minor surgical procedures on the same date of service or during the 10-day global surgical period are not recommended for separate reimbursement.

Evaluation and Management services for established patients that are reported with surgical procedures that have a 0-day global surgical period are not recommended for reimbursement on the same day of surgery because there is an inherent evaluation and management service included in all surgical procedures.

### **Global Maternity Editing**

Procedures with “MMM - Global periods for maternity services are classified as “MMM” when an evaluation and management service is billed during the antepartum period (270 days), on the same date of service or during the postpartum period (45days) are not recommended for separate reimbursement if the procedure code includes antepartum and postpartum care.

### **Diagnostic Services Bundled to the Inpatient Admission (3-Day Payment Window)**

This rule identifies outpatient diagnostic services that are provided to a member within three days prior to and including the date of an inpatient admission. When these services are billed by the same admitting facility or an entity wholly owned or operated by the admitting facility; they are considered bundled into the inpatient admission, and therefore, are not separately reimbursable.

### **Multiple Code Rebundling**

This rule analyzes if a provider billed two or more procedure codes when a single more comprehensive code should have been billed to represent all of the services performed.

### **Frequency and Lifetime Edits**

The CPT and HCPCS manuals define the number of times a single code can be reported. There are also codes that are allowed a limited number of times on a single date of service, over a given period of time or during a member’s lifetime. State fee schedules also delineate the number of times a procedure can be billed over a given period of time or during a member’s lifetime. Code editing will fire a frequency edit when the procedure code is billed in excess of these guidelines.

### **Duplicate Edits**

Code auditing will evaluate prospective claims to determine if there is a previously paid claim for the same member and provider in history that is a duplicate to the prospective claim. The software will also look across different providers to determine if another provider was paid for the same procedure, for the same member on the same date of service. Finally, the software will analyze multiple services within the same range of services performed on the same day. For example a nurse practitioner and physician bill for office visits for the same member on the same day.

## **National Coverage Determination Edits**

CMS establishes guidelines that identify whether some medical items, services, treatments, diagnostic services or technologies can be paid under Medicare. These rules evaluate diagnosis to procedure code combinations.

### **Anesthesia Edits**

This rule identifies anesthesia services that have been billed with a surgical procedure code instead of an anesthesia procedure code.

### **Invalid revenue to procedure code editing:**

Identifies revenue codes billed with incorrect CPT codes.

### **Assistant Surgeon**

Rule evaluates claims billed as an assistant surgeon that normally do not require the attendance of an assistant surgeon. Modifiers are reviewed as part of the claims analysis.

### **Co-Surgeon/Team Surgeon Edits:**

CMS guidelines define whether or not an assistant, co-surgeon or team surgeon is reimbursable and the percentage of the surgeon's fee that can be paid to the assistant, co or team surgeon.

### **Add-on and Base Code Edits**

Rules look for claims where the add-on CPT code was billed without the primary service CPT code or if the primary service code was denied, then the add-on code is also denied. This rule also looks for circumstances where the primary code was billed in a quantity greater than one, when an add-on code should have been used to describe the additional services rendered.

### **Bilateral Edits**

This rule looks for claims where the modifier -50 has already been billed, but the same procedure code is submitted on a different service line on the same date of service without the modifier -50. This rule is highly customized as many health plans allow this type of billing.

### **Replacement Edits**

These rules recommend that single service lines or multiple service lines are denied and replaced with a more appropriate code. For example, the same provider bills more than one outpatient consultation code for the same member in the member's history. This rule will deny the office consultation code and replace it with a more appropriate evaluation and management service, established patient or subsequent hospital care code. Another example, the rule will evaluate if a provider has billed a new patient evaluation and management code within three years of a previous new patient visit. This rule will replace the second submission with the appropriate established patient visit. This rule uses a crosswalk to determine the appropriate code to add.

## Missing Modifier Edits

This rule analyzes service lines to determine if a modifier should have been reported but was omitted. For example, professional providers would not typically bill the global (technical and professional) component of a service when performed in a facility setting. The technical component is typically performed by the facility and not the physician.

## Administrative and Consistency Rules

These rules are not based on clinical content and serve to validate code sets and other data billed on the claim. These types of rules do not interact with historically paid claims or other service lines on the prospective claim. Examples include, but are not limited to:

**Procedure code invalid rules:** Evaluates claims for invalid procedure and revenue or diagnosis codes

**Deleted Codes:** Evaluates claims for procedure codes which have been deleted

**Modifier to procedure code validation:** Identifies invalid modifier to procedure code combinations. This rule analyzes modifiers affecting payment. As an example, modifiers -24, -25, -26, -57, -58 and -59.

**Age Rules:** Identifies procedures inconsistent with member's age

**Gender Procedure:** Identifies procedures inconsistent with member's gender

**Gender Diagnosis:** Identifies diagnosis codes inconsistent with member's gender

**Incomplete/invalid diagnosis codes:** Identifies diagnosis codes incomplete or invalid

## Prepayment Clinical Validation

Clinical validation is intended to identify coding scenarios that historically result in a higher incidence of improper payments. An example of SilverSummit Healthplan's clinical validation services is modifier -25 and -59 review. Some code pairs within the CMS NCCI edit tables are allowed for modifier override when they have a correct coding modifier indicator of "1," Furthermore, public-domain specialty organization edits may also be considered for override when they are billed with these modifiers. When these modifiers are billed, the provider's billing should support a separately identifiable service (from the primary service billed, modifier -25) or a different session, site or organ system, surgery, incision/excision, lesion or separate injury (modifier -59). SilverSummit Healthplan's clinical validation team uses the information on the prospective claim and claims history to determine whether or not it is likely that a modifier was used correctly based on the unique clinical scenario for a member on a given date of service.

The Centers for Medicare and Medicaid Services (CMS) supports this type of prepayment review. The clinical validation team uses nationally published guidelines from CPT and CMS to determine if a modifier was used correctly.

## **MODIFIER -59**

The NCCI (National Correct Coding Initiative) states the primary purpose of modifier 59 is to indicate that procedures or non-E/M services that are not usually reported together are appropriate under the circumstances. The CPT Manual defines modifier -59 as follows: “Modifier -59: Distinct Procedural Service: Under certain circumstances, it may be necessary to indicate that a procedure or service was distinct or independent from other non-E/M services performed on the same day. Modifier 59 is used to identify procedures/services, other than E/M services, that are not normally reported together, but are appropriate under the circumstances. Documentation must support a different session, different procedure or surgery, different site or organ system, separate incision/excision, separate lesion, or separate injury (or area of injury in extensive injuries) not ordinarily encountered or performed on the same day by the same individual.

Some providers are routinely assigning modifier 59 when billing a combination of codes that will result in a denial due to unbundling. We commonly find misuse of modifier 59 related to the portion of the definition that allows its use to describe “different procedure or surgery”. NCCI guidelines state that providers should not use modifier 59 solely because two different procedures/surgeries are performed or because the CPT codes are different procedures. Modifier 59 should only be used if the two procedures/surgeries are performed at separate anatomic sites, at separate patient encounters or by different practitioners on the same date of service. NCCI defines different anatomic sites to include different organs or different lesions in the same organ. However, it does not include treatment of contiguous structures of the same organ.

### **SilverSummit Healthplan uses the following guidelines to determine if modifier -59 was used correctly:**

- The diagnosis codes or clinical scenario on the claim indicate multiple conditions or sites were treated or are likely to be treated;
- Claim history for the patient indicates that diagnostic testing was performed on multiple body sites or areas which would result in procedures being performed on multiple body areas and sites.
- Claim history supports that each procedure was performed by a different practitioner or during different encounters or those unusual circumstances are present that support modifier 59 were used appropriately.

To avoid incorrect denials providers should assign to the claim all applicable diagnosis and procedure codes used, and all applicable anatomical modifiers designating which areas of the body were treated.

## **MODIFIER -25**

Both CPT and CMS in the NCCI policy manual specify that by using a modifier 25 the provider is indicating that a “significant, separately identifiable evaluation and

management service was provided by the same physician on the same day of the procedure or other service”. Additional CPT guidelines state that the evaluation and management service must be significant and separate from other services provided or above and beyond the usual pre-, intra- and postoperative care associated with the procedure that was performed.

The NCCI policy manual states that “If a procedure has a global period of 000 or 010 days, it is defined as a minor surgical procedure. (Osteopathic manipulative therapy and chiropractic manipulative therapy have global periods of 000.) The decision to perform a minor surgical procedure is included in the value of the minor surgical procedure and should not be reported separately as an E&M service. However, a significant and separately identifiable E&M service unrelated to the decision to perform the minor surgical procedure is separately reportable with modifier 25. The E&M service and minor surgical procedure do not require different diagnoses. If a minor surgical procedure is performed on a new patient, the same rules for reporting E&M services apply. The fact that the patient is “new” to the provider is not sufficient alone to justify reporting an E&M service on the same date of service as a minor surgical procedure. NCCI does contain some edits based on these principles, but the Medicare Carriers and A/B MACs processing practitioner service claims have separate edits.

**SilverSummit Healthplan uses the following guidelines to determine whether or not modifier 25 was used appropriately.**

If any one of the following conditions is met then, the clinical nurse reviewer will recommend reimbursement for the E/M service.

- If the E/M service is the first time the provider has seen the patient or evaluated a major condition
- A diagnosis on the claim indicates that a separate medical condition was treated in addition to the procedure that was performed
- The patient’s condition is worsening as evidenced by diagnostic procedures being performed on or around the date of services
- Other procedures or services performed for a member on or around the same date of the procedure support that an E/M service would have been required to determine the member’s need for additional services.
- To avoid incorrect denials providers should assign all applicable diagnosis codes that support additional E/M services.

## **INPATIENT FACILITY CLAIM EDITING**

### **Potentially Preventable Readmissions Edit**

This edit identifies readmissions within a specified time interval that may be clinically related to a previous admission. For example, a subsequent admission may be plausibly related to the care rendered during or immediately following a prior hospital admission in the case of

readmission for a surgical wound infection or lack of post-admission follow up. Admissions to non-acute care facilities (such as skilled nursing facilities) are not considered readmissions and not considered for reimbursement. CMS determines the readmission time interval as 30 days; however, this rule is highly customizable by state rules and provider contracts.

## **Payment and Coverage Policy Edits**

Payment and Coverage policy edits are developed to increase claims processing effectiveness, to better ensure payment of only correctly coded and medically necessary claims, and to provide transparency to providers regarding these policies. It encompasses the development of payment policies based on coding and reimbursement rules and clinical policies based on medical necessity criteria, both to be implemented through claims edits or retrospective audits. These policies are posted on each health plan's provider portal when appropriate. These policies are highly customizable and may not be applicable to all health plans.

## **Claim Reconsiderations related to Code Auditing and Editing**

Claims appeals resulting from claim-editing are handled per the provider claims appeals process outlined in this manual. When submitting claims appeals, please submit medical records, invoices and all related information to assist with the appeals review.

If you disagree with a code audit or edit and request claim reconsideration, you must submit medical documentation (medical record) related to the reconsideration. If medical documentation is not received, the original code audit or edit will be upheld.

## **VIEWING CLAIM CODING EDITS**

### **Code Editing Assistant**

A web-based code auditing reference tool designed to “mirror” how the code auditing product(s) evaluate code and code combinations during the auditing of claims. The tool is available for providers who are registered on our secure provider portal. You can access the tool in the Claims Module by clicking “Claim Auditing Tool” in our secure provider portal.

This tool offers many benefits:

- PROSPECTIVELY access the appropriate coding and supporting clinical edit clarifications for services BEFORE claims are submitted.
- PROACTIVELY determine the appropriate code/code combination representing the service for accurate billing purposes

The tool will review what was entered, and will determine if the code or code combinations are correct based on the age, sex, location, modifier (if applicable), or other code(s) entered.

The Code Editing Assistant is intended for use as a “what if” or hypothetical reference tool. It is meant to apply coding logic only. The tool does not take into consideration historical claims information which may be used to determine if an edit is appropriate

The code editing assistant can be accessed from the provider web portal.

## **Disclaimer**

*This tool is used to apply coding logic ONLY. It will not take into account individual fee schedule reimbursement, authorization requirements, or other coverage considerations. Whether a code is reimbursable or covered is separate and outside of the intended use of this tool.*

## **OTHER IMPORTANT INFORMATION**

### **Health Care Acquired Conditions (HCAC) – Inpatient Hospital**

SilverSummit Healthplan follows Medicare's policy on reporting Present on Admission (POA) indicators on inpatient hospital claims and non-payment for HCACs. Acute care hospitals and Critical Access Hospitals (CAHs) are required to report whether a diagnosis on a Medicaid claim is present on admission. Claims submitted without the required POA indicators are denied. For claims containing secondary diagnoses that are included on Medicare's most recent list of HCACs and for which the condition was not present on admission, the HCAC secondary diagnosis is not used for DRG grouping. That is, the claim is paid as though any secondary diagnoses (HCAC) were not present on the claim. POA is defined as "present" at the time the order for inpatient admission occurs. Conditions that develop during an outpatient encounter, including emergency department, observation, or outpatient surgery, are considered Present on Admission. A POA indicator must be assigned to principal and secondary diagnoses. Providers should refer to the CMS Medicare website for the most up to date POA reporting instructions and list of HCACs ineligible for payment.

### **Reporting and Non Payment for Provider Preventable Conditions (PPCS)**

Provider Preventable Conditions (PPCs) addresses both hospital and non-hospital conditions identified by SilverSummit Healthplan for non-payment. PPCs are defined as Health Care Acquired Conditions (HCACs) and Other Provider Preventable Conditions (OPPCs). Medicaid providers are required to report the occurrence of a PPC and are prohibited from payment.

### **Non-Payment and Reporting Requirements Provider Preventable Conditions (PPCS) - Inpatient**

SilverSummit Healthplan follows the Medicare billing guidelines on how to bill a no-pay claim, reporting the appropriate Type of Bill (TOB 110) when the surgery/procedure related to the NCDs service/procedure (as a PPC) is reported. If covered services/procedures are also provided during the same stay, the health plan follows Medicare's billing guidelines requiring hospitals submit two claims: one claim with covered services, and the other claim with the non-covered services/procedures as a non-pay claim. Inpatient hospitals must appropriately report one of the designated ICD diagnosis codes for the PPC on the no-pay TOB claim.

SilverSummit Healthplan follows the Medicare billing guidelines on how to bill a no-pay claim,

reporting the appropriate Type of Bill (TOB 110) when the surgery/procedure related to the NDC service/procedure (as a PPC) is reported.

### **Other Provider Preventable Conditions (OPPCS) – Outpatient**

Medicaid follows the Medicare guidelines and national coverage determinations (NCDs), including the list of HAC conditions, diagnosis codes and OPPCs. Conditions currently identified by CMS include:

- Wrong surgical or other invasive procedure performed on a patient;
- Surgical or other invasive surgery performed on the wrong body part; and
- Surgical or other invasive procedure performed on the wrong patient.

### **Non-Payment and Reporting Requirements Other Provider Preventable Conditions (OPPCS) – Outpatient**

Medicaid follows the Medicare guidelines and NCDs, including the list of HAC conditions, diagnosis codes and OPPCs. Outpatient providers must use the appropriate claim format, TOB and follow the applicable NCD/modifier(s) to all lines related to the surgery(s).

### **Lesser of Language**

Unless specifically contracted otherwise, SilverSummit Healthplan's policy is to pay the lesser of billed charges and negotiated rate.

- Example 1 – Code 12345 – Billed \$600. Negotiated Rate is \$500. RCO pays \$500 negotiated rate.
- Example 2 – Code 12345 – Billed \$500. Negotiated Rate is \$600. RCO pays \$500 billed rate.

### **Timely Filing**

Providers must submit all claims and encounters within 180 calendar days of the date of service or date of eligibility. When SilverSummit Healthplan is the secondary payer, claims must be received within 365 calendar days from the date of service or date of eligibility.

All claim requests for reconsideration, corrected claims or claim disputes must be received within 30 calendar days from the date of Remittance Advice (RA) of payment or denial is issued.

### **Use of Assistant Surgeons**

An Assistant Surgeon is defined as a physician who utilizes professional skills to assist the Primary Surgeon on a specific procedure. All Assistant Surgeon's procedures are subject to retrospective review for Medical Necessity by Medical Management. All Assistant Surgeon's

procedures are subject to health plan policies and are not subject to policies established by contracted hospitals.

Hospital medical staff bylaws that require an Assistant Surgeon be present for a designated procedure are not grounds for reimbursement. Medical staff bylaws alone do not constitute medical necessity. Nor is reimbursement guaranteed when the patient or family requests an Assistant Surgeon be present for the surgery. Coverage and subsequent reimbursement for an Assistant Surgeon's service is based on the medical necessity of the procedure itself and the Assistant Surgeon's presence at the procedure.

## **APPEALS AND GRIEVANCES**

### **Important Information about Your Appeal Rights**

Refer to your Provider Manual for details on your appeal rights. The required Provider Reconciliation/Appeal Form found on the next page, along with appropriate appeal documentation, can be submitted to:

**SilverSummit Healthplan  
ATTN: Appeals and Grievances  
PO Box 5090  
Farmington, MO 63640-5090**

**Phone Number: 844-366-2880  
TTY Users 844-833-5780**

**PROVIDER RECONSIDERATION/APPEAL FORM**

Use this form as part of the SilverSummit Healthplan Reconsideration/Appeal process to address the decision made during the request for review process. **This form should be utilized if a claim has been processed and a Medicaid Remittance Advice issued from SilverSummit Healthplan. Do not use for first time claims or corrected claims.** For corrected claims, please use the claims resubmission process outlined in the provider manual.

All claim requests for reconsideration or claim disputes must be received within 60 calendar days from the date of the Medicaid Remittance. All fields below are required information. Failure to complete the form may result in a delay of your request.

**A Reconsideration** is a request for SilverSummit Healthplan to review a claim with additional information submitted by the provider that was not previously submitted. Supporting documentation for review include, but is not limited to:

- Copy of Invoice for Pricing Review
- Additional documentation which would clarify services

**An Appeal** is a formal written request to SilverSummit Healthplan for reconsideration of a medical or contractual adverse decision. Types of claim denials that would be an appeal include but are not limited to:

- Precertification
- Experimental/Investigational
- Not Medically Necessary

## **OTHER RELEVANT BILLING INFORMATION**

### **Interim Claims**

Interim hospital encounters are allowed as long as the length of stay is greater than 30 days. However, second, third, fourth, final interim encounters must be submitted as an adjustment to the original claim and must contain all dates of service from admission through to the last service date included on the claim. Only one interim claim is allowed, the remaining must be adjusted to the original claim.

## APPENDIX II: INSTRUCTIONS FOR SUPPLEMENTAL INFORMATION

### CMS-1500 (2/12) Form, Shaded Field 24A-G

The following types of supplemental information are accepted in a shaded claim line of the CMS 1500 (2/12) form field 24A-G:

- Narrative description of unspecified/miscellaneous/unlisted codes
- National Drug Codes (NDC) for drugs
- Contract Rate

The following qualifiers are to be used when reporting these services.

ZZ Narrative description of unspecified/miscellaneous/unlisted codes  
 N4 National Drug Codes (NDC)  
 CTR Contract Rate

The following qualifiers are to be used when reporting NDC units:

F2 International Unit  
 GR Gram  
 ML Milliliter  
 UN Unit

To enter supplemental information, begin at 24A by entering the qualifier and then the information. Do not enter a space between the qualifier and the number/code/information. Do not enter hyphens or spaces within the number/code.

When reporting a service that does not have a qualifier, enter two blank spaces before entering the information.

More than one supplemental item can be reported in the shaded lines of item number 24. Enter the first qualifier and number/code/information at 24A. After the first item, enter three blank spaces and then the next qualifier and number/code/information.

For reporting dollar amounts in the shaded area, always enter the dollar amount, a decimal point, and the cents. Use 00 for cents if the amount is a whole number. Do not use commas. Do not enter dollars signs (ex. 1000.00; 123.45).

## APPENDIX III: INSTRUCTIONS FOR SUBMITTING NDC INFORMATION

### Instructions for Entering the NDC:

(Use the guidelines noted below for all claim types including WebPortal submission)

CMS requires the 11-digit National Drug Code (NDC), therefore, providers are required to submit claims with the exact NDC that appears on the actual product administered, which can be found on the vial of medication. The NDC must include the NDC Unit of Measure and NDC quantity/units.

When reporting a drug, enter identifier N4, the eleven-digit NDC code, Unit Qualifier, and number of units from the package of the dispensed drug.

Data Element	Loop	Segment/Element
NDC	2410	LIN03
Unit of Measure	2410	CTP05-01
Unit Price	2410	CTP03
Quantity	2410	CTP04

For Electronic submissions, this is highly recommended and will enhance claim reporting/adjudication processes, report in the LIN segment of Loop ID-2410.

Paper, use the red shaded detail of 24A on the CMS1500 line detail.

Do not enter a space, hyphen, or other separator between N4, the NDC code, Unit Qualifier, and number of units.

The NDC must be entered with 11 digits in a 5-4-2 digit format. The first five digits of the NDC are the manufacturer's labeler code, the middle four digits are the product code, and the last two digits are the package size.

If you are given an NDC that is less than 11 digits, add the missing digits as follows:

For a 4-4-2 digit number, add a 0 to the beginning

For a 5-3-2 digit number, add a 0 as the sixth digit.

For a 5-4-1 digit number, add a 0 as the tenth digit.

Enter the Unit Qualifier and the actual metric decimal quantity (units) administered to the Patient. If Reporting A Fraction Of A Unit, Use The Decimal Point. The Unit Qualifiers Are:

F2 - International Unit

GR -Gram

ML - Milliliter

ME - Milligram

UN – Unit

## APPENDIX V – CLAIMS FORM INSTRUCTIONS – UB

### UB-04/CMS 1450 (2/12) Claim Form Instructions

#### Completing a UB-04 Claim Form

A UB-04 is the only acceptable claim form for submitting inpatient or outpatient Hospital claim charges for reimbursement by SilverSummit Healthplan. In addition, a UB-04 is required for Comprehensive Outpatient Rehabilitation Facilities (CORF), Home Health Agencies, nursing home admissions, inpatient hospice services, and dialysis services. Incomplete or inaccurate information will result in the claim/encounter being rejected for correction.

#### UB-04 Hospital Outpatient Claims/Ambulatory Surgery

The following information applies to outpatient and ambulatory surgery claims:

Professional fees must be billed on a CMS 1500 claim form.

Include the appropriate CPT code next to each revenue code.

Please refer to your provider contract with SilverSummit Healthplan or research the Uniform Billing Editor for Revenue Codes that do not require a CPT Code.
